What is Precision Board?

High density, closed cell urethane

We are a distributor – purchasing 48 x 96 smooth

We now have 33 patterns + custom work

Density: 15#, 18#, 20#, depending on pattern & use

Thickness: 1/2" & 3/4"

Design guidelines?

Size & use of material = density & thickness

What tools can be used?

Any tools used on wood. No hot wire foam cutters!

Types of glue?

**Gorilla Glue on raw Precision Board
Gel type quick setting glue
Silicone**

Demo building assembly

Types of roof – shingle, shake shingle, tile, metal, gravel
